

POWER SERIES™ POWER SERIES™ POWER SERIES™

Stewart Warner **POWER SERIES™** Instruments

*Feel the power...
monitor the
performance!*

THE NEW **POWER SERIES™**. You feel the power...your heart is pounding...the G's force you back in your seat. Glancing down, your instruments tell you that all is well as they respond with quick smooth readings. Stewart Warner salutes the "Muscle Cars" of yesterday and today with our new **POWER SERIES™** instruments, derived from the real thing—our 1960s Custom-Deluxe product line used on Big 3 muscle cars of that era. Now available in three accent colors—burgundy, titanium and blue/gray—to complement your cars' color scheme. Features include a brushed aluminum disk in the center of the dial for a uniquely "Stewart Warner" look, a specially designed pointer and graphics based on the originals. Plus, these instruments deliver the performance and technology required for today's performance applications. Choose from four kits or select from individual part numbers. STEWART WARNER POWER SERIES™ INSTRUMENTS ARE THE REAL THING...THERE IS NO SUBSTITUTE!
